

SHAH INTERNATIONAL SCHOOL

EVOLVING SCIENCE PRUDENCE

With a view to honing scientific temper, Shah International School, Paschim Vihar celebrated Science Week from 9 August – 16 August 2016. Sincere and honest endeavors were made to assuage the inhibitions of the students and instill self confidence among them to deal with tricky problems in the often dreaded subject. The week long activities began with a special assembly which was conducted by Class XI. The students began with a topic presentation on the importance of Pulses in our life and the significance of Nutritive food and how they govern our ways of living and thinking. A nukkad natak was presented emphasizing on the prominence of pulses and healthy food. The special week was christened as Math and Science Mania. Various activities were meticulously designed class wise. These included exhibiting PPTs, drawing cartoons and sketches, making sprouts, making projects of Science and Math etc. The students were sensitized and goaded to shun junk food and inculcate healthy eating habits. The efforts of the students and the teachers were lauded by the school Principal Ms. Sajilekha Pillai and the school management.
